

# **IMPORTANT ANNOUNCEMENT**

After years of providing care to our patients in the hospital, due to the increased demands of hospital work we regret to inform you that as of July 1, we will no longer be following our patients at York Hospital.

We will have continued access to the Wellspan/York Hospital electronic record and continue to maintain a dedicated transition of care staff person at our office. The doctors who will care for you at the hospital are hospitalists who are physicians who have devoted their entire careers to caring for patients in the hospital setting. Our staff person will continue to interact with hospital staff to coordinate any tests, medication changes or follow up testing required at discharge. Please know that we still place a high value on a smooth transition from the hospital to our office and will continue to arrange direct admissions to the hospital when needed. In addition, one of our doctors or advanced practitioners will continue to be available by phone to

the hospital, hospitalists and to you for any emergencies or questions 24hrs a day.
